

DRUMOIG WILDLIFE FORUM NEWSLETTER -REVIEW FOR 2022.

During 2022 there were 6 editions of the newsletter, totalling approximately 90 pages.

We have had regular contributions from:

Alec Burden – brilliant drone pictures

Christine & Paul Edwards

Rob Pirie – our very own “farming correspondent”

Steve Norrie – our resident astronomer

We have also had other contributions from:

Sally Byers

Michael & Jeanie Duncan

Christine Kerr

Damian & Christine Leddy

Euan McGregor

Nature Scotland

Lil Smith

Andrew Thomson

Margaret Wells - Margaret also brought the plight of the ground nesting birds (mainly Skylarks) in the meadows adjacent to the building sites, to the attention of the DRA committee and Kirkwood Homes. This resulted in 4 signs being erected to advise walkers & dog owners of their presence.

If I have missed anyone out, please accept my abject apologies!

Needless to say, to keep the newsletter going we need residents to contribute articles, observations or ideas. So, don't be backward in coming forward!!

Martin Hepworth (Editor)
